

Use of the school car parks.

Dear Parents,

The bottom car park, which is the one by the hard play area, is for staff parking only and will be locked between the hours of 08.45 – 16.00 for security reasons.

The main school car park is the overflow car park for staff and part time staff and will be locked between the hours of 08.45 – 16.00 for safety reasons.

If you are visiting the school for a pre-arranged meeting, or you have an appointment in school, you may use the main car park if there are parking spaces available after 9.00. If there are no spaces available, we ask you to park on the road, as the chevron area needs to remain free at all times in case of Emergencies.

In the mornings when dropping your children off at school, you are not allowed to use this car park at all.

When collecting your child after school we ask you not to use the car park at all as the bus needs to have access. If your child is staying behind to do after school activities you may use the car park if spaces are available, but not the chevron area.

Please observe the one way system in place.

We appreciate your cooperation with this matter so we can ensure the safety of our children and visitors.
